**RE: BORLAND STREET CLOSURE**  
**August 1 to September 18, 2011**

Dear Brookline Resident:

In order to provide for both the safe operation of large craning equipment and a staging area for the new 48" sewer pipe associated with the Sewer Separation Project underway along Beacon Street (inbound), **BORLAND STREET will be CLOSED for an anticipated 7-week window starting MONDAY, AUGUST 1, 2011:**

- **Local Access will be permitted from Chatham Street only.**
- **Work Site** will occupy the first 100' length of Borland Street (full width) from Beacon Street north.
- **Work Hours** will be Monday to Saturday, from 7:00AM to 7:00PM.
- **Sidewalks** will remain open outside of working hours but generally closed during workday operations due to overhead craning activity.
- **Parking** will be limited to work vehicles only.
- **Brookline Police Details** will be on-site to safely guide vehicular traffic and assist pedestrians during Workday Operations.

Thank you for your on-going cooperation through the summer months, and we apologize for the inconvenience of accommodating this infrastructure project.

Respectfully,

Peter M. Ditto, P.E.  
Director
